The Changing Age

Girls and boys from 14 to 19 years
of age undergo physical changes
which tax their strength to the utmost
and the strain is always apparent from
pale cheeks, colorless lips, and tired
bodies—sometimes eruptions of the skin
and the utter lack of the amblition and
animation with which their younger
years were filled.

Budding into womanhood and man-
hood, with the duties of school or busi-
ness, demands concentrated nourishment
which is readily convertible into red blood
corpuscles, energy and strength, and the
very best thing for this changing age is
the medical nutrient in Scott's Emul-
sion—it possesses the rare blood-making
properties of cod liver oil in a pre-
digested form; hypophosphites for the
nervous system, with the healing, sooth-
ing qualities of pure glycerine.

Its nourishing force promotes assimila-
tion, yields direct returns in abundant,
red blood, fills hollow cheeks, tones the
nerves, makes all good food do good,
and does it in a natural easy manner.

The sustaining nourishment in Scott's
Emulsion is so helpful to this changing
age that it should never be neglected—
every druggist has it.
